Parkland School Division

Accountability Pillar Results Report for 2018-2019

November 1, 2019

WHERE THE WORLD OPENS UP

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

Approximate Survey Responses:

- 40 parents in our school responded to the survey. This is up from 37 last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 551 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 48 teachers from our school.

These are approximate numbers as not every respondent answers every question.

Highlights and Celebrations

Spruce Grove Composite High School continues to celebrate the strong work of staff, students and our overall community.

- SGCHS has a very low drop out rate accompanied by a very high high school completion rate. These scores are a result of our staff's efforts for students to be successful. The use of Seminar and Directed Learning Room time by the staff means that more of our students are successfully completing the work required for their Diplomas.

- Our Diploma Exam standards of Acceptable and Excellence make us proud. Our staff strives to ensure that students internalize the curricula in order for them to demonstrate their learning successfully on these standardized exams.
- SGCHS has built in Teacher Collaborative Time; this has allowed our teachers time within their departments to further develop their curricular understanding, how best to deliver said curricula to students, and how best to assess student learning. This is reflected in our APOR Program of Studies measure being high.

Parkland School Division's Ultimate Goal is Student Success and Well-Being. To this end, the Board's current Education Plan targets nine assurance elements in student growth, teaching and leading and learning supports.

There are still some areas for growth within our Accountability Pillar Survey results. Spruce Grove Composite High School is committed to improvement and continuing to learn and grow with our community. For our action items related to this report, please visit our school's Education Plan section of our website.

Areas Requiring Strategic Planning

- At SGCHS, our APOR results for Work Preparation and Citizenship are lagging behind where we would like them to be. As such, our staff is pursuing opportunities to improve this. Becoming more actively involved in our community and making connections between curricula and the world of work are two ways we are currently engaging with these measures.
- Our Parental Involvement score is also quite low. We are working with our School Council to seek ways we can improve this.
